DETAILED ACTION

Claim Objections

1. Claim 16 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Sresta (U.S. 5,180,352). Sresta discloses a dumbbell with a handle element (9) and with at least one holder (3) for removable fastening of one or more weight disks, wherein the at least one holder comprises a casing, the interior of which is open on a front side facing away from the dumbbell handle element for insertion and removal of the weight disks, and locking means (8) capable of acting in combination with weight disks on their outer circumference. As best understood, Sresta discloses recesses. Examiner also respectfully points out that Applicant has failed to positively claim the weight disks, and therefore, they are not considered part of the invention. Referring to claim 20 Sresta discloses the claimed invention including the electronic oscillator which creates sound which may construe an anti-theft device.

Allowable Subject Matter

4. Claims 3, 4, 8-15, 17 and 19 are allowed. Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 12/22/2006 have been fully considered but they are not persuasive. As best understood, Sresta still comprehends the broad nature of claim 1.
